

Ticket ID	Alert Message	Severity	Details	Ticket status
A-2703	SERVER-MAIL Phishing attempt possible download of malware	Medium	The user may have opened a malicious email and opened attachments or clicked links.	Escalated

Ticket comments
There are some discrepancies in the email which states multiple names. First, the email address is "76tguy6hh6tgftrt7tg.su" while the name in the email body is "Clyde West," the sender's name written as "Def Communications." rather than the aforementioned name. The email body and subject line contained grammatical errors. The email contained a password-protected attachment, "bfsvc.exe," a resume should never be an executable file. Having previously investigated the file hash, it was confirmed to be a malicious file containing a Trojan. With these findings along with the medium ticket severity, the ticket will be escalated to a level-two SOC analyst for further action.

Additional information

Known malicious file hash:

54e6ea47eb04634d3e87fd7787e2136ccfbcc80ade34f246a12cf93bab527f6b

Subject: Re: Infrastructure Egnieer role

Dear HR at Inergy,

I am writing for to express my interest in the engineer role posted from the website.

There is attached my resume and cover letter. For privacy, the file is password protected. Use the password paradise10789 to open.

Thank you,

Clyde West
